

Compact Tile Cutting Saw with 600W Motor

This compact tile saw is designed for precise and efficient tile cutting. It features a 600W motor, providing ample power for cutting various tile materials.

Overview

Compact Tile Cutting Saw

This compact tile saw is engineered for precision and efficiency in professional tile installation projects. Powered by a reliable 600W motor, it delivers consistent performance for cutting various tile materials with ease. With its versatile cutting angles and generous workspace, it is an ideal solution for contractors seeking a balance between portability and cutting capacity.

Technical Specifications

Motor Power

600 W

Rated Power

Electrical Requirements 230V~, 50Hz

No-Load Speed 2950 min⁻¹

Cutting Performance

Cutting Angles

- 45
- 90

Max Cutting Depth 45 mm

Blade Specifications 1200x 116x 2.5mm, 20 teeth

Physical Dimensions

Table Dimensions 500 x 335mm

Overall Dimensions 540 x 360 x 280mm

Product Weight 8.8kg (Net) / 10.3kg (Gross)
