

Compact Top-Loading Washing and Drying Machine

This compact, top-loading machine efficiently washes and spin-dries clothing. It is designed for small spaces and light laundry loads with a durable plastic body and user-friendly control panel.

Product Overview

Compact Laundry Solution

This compact top-loading washing and drying machine is engineered for efficiency in space-constrained environments. Featuring a durable plastic chassis, it combines reliable washing performance with an effective spin-drying function. The intuitive control panel allows for easy navigation across multiple wash cycles to handle various laundry needs.

Technical Specifications
