

Compact Top-Loading Washing Machine

This compact top-loading washing machine is designed for small spaces, offering efficient cleaning performance in a portable design. It features a user-friendly control panel with multiple wash cycles to accommodate various fabric types and soil levels.

Product Overview

Compact Laundry Solution

This compact top-loading washing machine is engineered for high-efficiency cleaning in space-constrained environments like apartments, RVs, and dormitories. Featuring a rust and dent-proof body with imported high-quality plastic, it offers robust durability for daily use. The unit is powered by a 100% copper motor equipped with thermal fuse protection for added safety and reliability.

Technical Specifications

Motor Construction	100% Copper with thermal fuse protection
Reliability Testing	5000 cycles

Construction

Body Composition	Rust and dent-proof high-quality imported plastic
------------------	---

Certifications

Compliance	CE, CB, ISO9001
