

# Compact Track Loader

This compact track loader is designed for versatile applications in confined spaces. It features a robust construction with tracked wheels for enhanced stability and maneuverability on various terrains.

## ADDITIONAL IMAGES

## Overview

### Versatile Compact Engineering Solution

This compact skid steer loader is engineered for high-efficiency operation in narrow, restricted environments such as urban infrastructure sites, warehouses, and workshops. It features a robust design with advanced hydraulic systems and compatibility with over 300 practical attachments, enabling tasks like shoveling, stacking, lifting, and digging. With an emphasis on operator safety and ease of use, the machine offers intuitive controls and excellent visibility, effectively replacing the labor output of 5-8 manual workers.

## Performance

### Operating Capacity

**238 kg**

Operating Capacity (35%)

**340 kg**

Operating Capacity (50%)

## Engine & Electrical

### Engine Specifications

Metric	Value
Make/Model	Kubota D1105-E4B-CSR-1
Fuel Type	Diesel
Horsepower	18.5 kW
Max RPM	3000 RPM
Torque (@ 2200 RPM)	71.5 Nm
Displacement	1.123 L

### Electrical System

- Battery: 12V 45Ah
- Alternator: 40 amps
- Starter: 1.4 kW Gear Reduction Type
- Starting Aid: Glow plugs

## Capacities

### Fluid Capacities

<b>35 L</b> Fuel Tank	<b>34 L</b> Hydraulic Reservoir	<b>40 L</b> Hydraulic System	<b>5.2 L</b> Cooling System	<b>5.1 L</b> Engine Oil (w/ Filter)
--------------------------	------------------------------------	---------------------------------	--------------------------------	--

## Features

### Key Features

Quick-change attachment system, Compact turning radius, Electronic control system, Hydraulic drive safety system, Stand-up operator position, Remote control capable
