

Compact Twin Tub Washing Machine

This compact twin tub washing machine is designed for efficient and convenient laundry. It features separate tubs for washing and spin drying, allowing for simultaneous operation.

Overview

Compact Twin Tub Efficiency

This semi-automatic washing machine offers a high-capacity 13kg load, making it an efficient choice for professional and commercial laundry needs. The twin tub design allows for simultaneous washing and spin-drying, significantly increasing throughput. Its durable construction and transparent cover provide both visibility and longevity, while the compact footprint ensures it fits well in space-constrained operational environments.
