Product Overview

Compact Professional UV Sterilizer

This 9L compact UV sterilizer is designed for efficient disinfection of small household or commercial items. It features a dual-action system with a 10W UV lamp for germicidal treatment and a 50W quartz heating element for high-temperature stoving at 70°C. Engineered with safety in mind, the unit includes an automatic power-cut mechanism when the door is opened, ensuring secure operation for all users.
