

Compact Washing and Drying Machine

This compact washing machine efficiently washes and dries clothing. Designed for small spaces, it is suitable for light laundry loads.

Product Overview

Compact Laundry Solution

This compact washing and drying machine is specifically engineered for efficient cleaning in space-constrained environments. Designed with versatility in mind, it is an ideal laundry solution for apartments, dormitories, and recreational vehicles. The unit features intuitive controls, allowing users to tailor wash cycles to different fabric types for optimal care.

Technical Specifications

Recommended Applications

- Small Apartments
- Dormitories
- Recreational Vehicles (RVs)
- Light Laundry Loads

Model Number	XQB28-865
Design Features	Compact Design, Translucent Lid, Side-Mounted Drain

Operational Capabilities

Core Functions

Washing • Drying
