

Compact Washing and Drying Machine with Dual Compartments

This compact machine integrates both washing and drying functions. It features two compartments with independent timers for each function.

Product Overview

Versatile Dual-Compartment Performance

This compact washing and drying machine is specifically engineered for environments where space is at a premium. It features independent compartments for washing and drying, allowing for efficient, small-load handling in a single portable unit. With intuitive, dedicated timer controls for both functions, it provides a streamlined experience for users requiring a reliable, space-saving laundry solution.

Key Features

Core Functionalities

- Dual compartment system
- Integrated washing cycle
- Dedicated drying chamber
- Portable design

Control & Operation

Operation Interface	Dual independent timers
---------------------	-------------------------
