## Product Overview

### Compact Waterproof Optics

These professional-grade compact binoculars are engineered for outdoor reliability, featuring nitrogen-filled waterproof housing for use in challenging environments. Built with high-quality Bak4 prisms and rotatable extendable eyecups, they deliver clear, stable imagery with precise optical alignment. Designed for portability without sacrificing performance, these models provide versatile magnification options suitable for varied observation needs.

## Optical Performance

Technical Comparison Table

Model	Magnification	Exit Pupil (mm)	Eye Relief (mm)	Field of View
TS207C-8X25DCF	7.8x / 7.7x	2.78 / 2.86	17.6 / 18.2	6° / 6° 2'
TS107C-10X25DCF	9.7x / 9.5x	2.25 / 2.31	14.9 / 14.9	5° 38' / 5° 58'

### Lens Dimensions

<b>25 mm</b> Objective Lens Diameter	<b>18 mm</b> Eyepiece Diameter	<b>14.5 mm</b> Prism Size
