

Compact Wheel Loader with 1.1 CBM Bucket

This compact wheel loader features a 1.1 CBM bucket and a 63kW engine. It is designed for efficient material handling in construction, agriculture, and landscaping applications.

Overview

Compact Wheel Loader

This compact wheel loader is designed for efficient material handling in confined spaces, making it an ideal choice for construction sites, farms, and landscaping projects. It features a streamlined, ergonomic design with an automated bucket leveling system for optimized performance. The operator cabin prioritizes comfort and safety, offering adjustable seating and optional climate control features.
