Overview

Compact Performance for Woodworking

The MC12 wood lathe is a versatile and compact machine engineered for precision in small to medium-sized woodworking projects. Featuring a robust cast iron bed for enhanced stability and vibration reduction, this unit is ideal for hobbyists and workshops where space is at a premium. With an adjustable speed motor and reliable power output, it provides the control necessary for detailed turning tasks and various material requirements.

Performance Metrics

Motor Power

550 W

Motor Power

Spindle Speed (50Hz) 430 rpm

Spindle Speed (60Hz) 520 rpm

Technical Specifications

Working Capacity

Specification	Value
Swing (Round Diameter)	305 mm
Centre Height	152 mm
Working Length	455 mm (Expandable to 1000 mm)

Speed Change Levels 5

Logistics & Physical

Weight

- Net Weight: 32 kg
- Gross Weight: 35 kg

Packing Dimensions	845 x 475 x 330 mm
--------------------	--------------------

Container Loading (20"/40")	217 / 448 / 512 pcs
-----------------------------	---------------------

Safety & Features

Safety Features	Overload Protection, Push-to-Reset Mechanism, Cast Iron Bed
