

Compacted Recycled Paper Bales

Bales of compacted recycled paper and cardboard are densely packed and secured with binding straps. The composition of mixed paper grades facilitates efficient waste management and resource recovery.

Product Overview

Sustainable Recycled Paper Solutions

These compacted recycled paper bales are designed for efficient waste management and resource recovery. Densely packed and secured with high-strength binding straps, the material consists of a mix of white paper, colored paper, and printed cardboard. This product is ideal for recycling facilities and paper mills looking for reliable, pre-processed raw materials.
