

Computer Enclosure

This computer enclosure is designed to house and protect the internal components of a desktop computer. It provides a structure for mounting and securing the motherboard, power supply, drives, and expansion cards.

Product Overview

Professional Lighting Solution

This ceiling-mounted spotlight fixture is designed for versatile accent and task lighting applications. Featuring a robust square base and three independently adjustable cylindrical spotlights, it provides precise control over light direction. The design includes distinctive blue accent details, making it a functional yet stylish addition to commercial or professional environments.
