

Concealed Duct Air Conditioning Unit 50/60Hz

This concealed duct air conditioning unit is designed for tropical climates, operating at both 50Hz and 60Hz. The unit provides efficient cooling and heating while integrating seamlessly into a building's ductwork.

Product Overview

Professional Concealed Duct Climate Control

This high-performance concealed duct air conditioning unit is engineered for versatility, supporting both 50Hz and 60Hz power frequencies. Designed for seamless integration into building infrastructure, it provides efficient cooling and heating performance across diverse environments. The system is built to maintain reliability even in demanding thermal conditions, including high ambient temperatures.

Notice to Buyers

Designs and specifications are subject to change for product improvement without prior notice.

Operational Specifications

Frequency Compatibility	50Hz, 60Hz
Maximum Operating Ambient Temperature	55

Technical Performance

Baseline Testing Conditions

Mode	Indoor Temp (DB/WB)	Ambient Temp (DB/WB)
Cooling	26.7/19.4	35/24
Heating	20/—	7/6
