Product Overview

Versatile Cutting Performance

This professional-grade cutter is engineered for precision work on concrete, asphalt, stone, and cement pavements. Designed for durability and ease of use, it features an ergonomic adjustable handle and a reliable water cooling system to extend blade life and minimize dust. The robust frame and high-performance engine options ensure straight, clean cuts even when encountering embedded steel bars.

Technical Specifications

Cutting Capabilities

14 cm

Max Cutting Depth

40 cm

Max Blade Size

Performance Range

Metric	Range
Power Output	3.7 - 10.3 kW
Operating Mass	83 - 127 kg
Water Tank Capacity	12 - 35 L

Design & Operation

Maintenance Features

- Blade protection design for easy replacement
- Rust-free water tank
- Integrated water source for blade cooling
- Durable, simple structural design

Operational Features

Ergonomic Design, Adjustable Handle Height, Crank-operated Depth Adjustment, Manual Push Driving, Water Cooling System
