

Concrete and Asphalt Cutting Machine

This construction machinery is designed for cutting concrete and asphalt surfaces. It is available in models QF-350/400 and QF-500 with different specifications.

Product Overview

Professional Cutting Performance

This heavy-duty concrete and asphalt cutting machine is engineered for precision and durability on construction sites. Available in two distinct power configurations, it delivers reliable performance for road maintenance and infrastructure projects. With robust cutting depths and efficient maneuverability, this equipment is designed to handle demanding surface materials with ease.

Technical Specifications

Model Comparison

Feature	QF-350/400	QF-500
Power	8HP	13HP
Blade Diameter (mm)	350/400	500
Cutting Depth (mm)	130	160
Cutting Speed (m/min)	1-2	1-2
Net Weight (kg)	100	110

Blade Thickness 4 mm

Operational Metrics

Water Tank Volume

45 L

Tank Capacity

Logistics and Handling

Packing Dimensions	1150 x 560 x 930 mm
Gross Weight Range	110kg (QF-350/400), 115kg (QF-500)
