

Concrete Floor Sawing Machine

Industrial grade concrete floor sawing machines are designed for cutting concrete, asphalt, and other hard surfaces. These machines feature powerful engines, adjustable cutting depths, and integrated water tanks for dust suppression.

Product Overview

Industrial Concrete Floor Sawing Machines

These industrial-grade floor sawing machines are engineered for precision cutting on concrete, asphalt, and other hard surfaces. Designed for construction site durability, they feature powerful engines, adjustable cutting depths, and integrated water tanks for effective dust suppression. Available in two robust models, these machines offer high maneuverability and consistent performance for professional road and floor maintenance tasks.

Technical Specifications

Model Comparison

Specification	QF-350/400	QF-500
Power	8HP	13HP
Blade Diameter (mm)	350/400	500
Cutting Depth (mm)	130	160
Cutting Speed (m/min)	1-2	1-2
Water Tank (L)	45	45
Net Weight (kg)	100	110

Key Performance Metrics

130 mm

Max Depth (QF-350/400)

160 mm

Max Depth (QF-500)

Logistics & Packaging

Shipping Information

- Packing Size: 1150 x 560 x 930 mm
- Gross Weight (QF-350/400): 110 kg
- Gross Weight (QF-500): 115 kg

Features

Key Capabilities

Concrete Cutting, Asphalt Cutting, Dust Suppression, Adjustable Depth, Industrial Grade
