

Concrete Mixer Truck

This heavy-duty concrete mixer truck is designed for efficient and reliable transportation and mixing of concrete. It is equipped with advanced hydraulic systems for smooth drum rotation and precise concrete discharge.

Overview

Heavy-Duty Concrete Mixer Truck

This heavy-duty concrete mixer truck is engineered for the efficient transportation and reliable mixing of concrete on demanding job sites. Built with a robust chassis and a high-capacity mixing drum, it ensures consistent performance for large-scale construction projects, road building, and infrastructure development. The vehicle features an advanced hydraulic system that provides smooth drum rotation and precise concrete discharge control.

Key Features

Ideal Applications

Large-scale construction, Road building, Infrastructure development

Technical Specifications

System Capabilities

- Robust chassis design
- High-capacity mixing drum
- Advanced hydraulic drum rotation
- Precise concrete discharge control

Performance Highlights

1 Powerful

Engine Power

1 Hydraulic

Drum Operation
