Product Overview

Professional Concrete Mixer Spare Parts

These high-quality wear-resistant components are specifically engineered to maintain the performance and longevity of industrial concrete mixing equipment. The product range covers essential maintenance parts including mixing blades, arms, and various liner types designed to withstand highly abrasive environments. Each component is manufactured to precise specifications to ensure an optimal fit, reduced downtime, and consistent mixing efficiency across multiple mixer series.

Technical Specifications

Supported Mixer Series

- MAO Series (1500/2000/3000/4000/4500)
- MAW Series (1500/2000/3000/4000/4500/5000/6000)
- MEO Series (750/1000/1250/1500/2000/3000)
- MSO Series (1000/1250/1500)
