Product Overview

A selection of professional concrete finishing equipment, from walk-behind models to high-capacity ride-on trowels.

Professional Concrete Finishing

This ride-on power trowel is designed for high-tolerance concrete floor finishing in industrial, commercial, and residential projects. Equipped with a high-performance gasoline engine, it delivers consistent smoothing results and high operating efficiency. The machine features a robust frame, safety cages for the blade assembly, and ergonomic controls to reduce manual labor during large-scale concrete surface preparation.

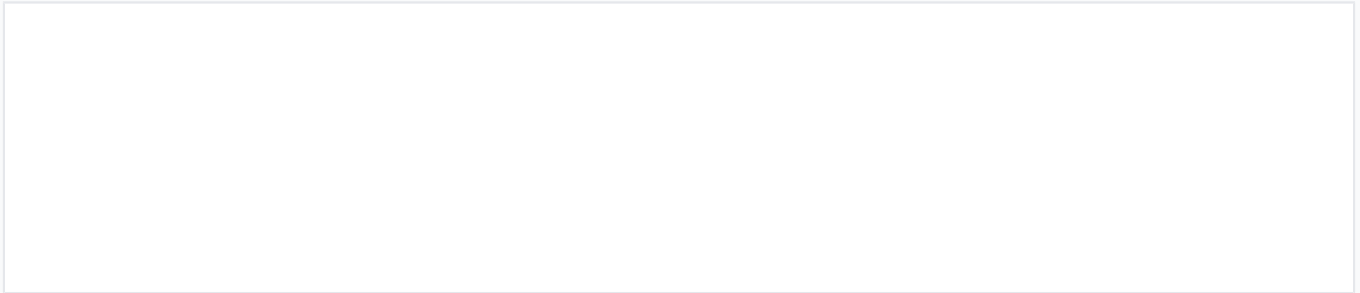

Technical Specifications

Ride-on power trowels ensure high-tolerance finishes on large industrial concrete surfaces.

Working Diameter	1910 mm
Disk Diameter	970 mm
Machine Weight	340 kg
Overall Dimensions (L x W x H)	2000 x 1050 x 1300 mm

Engine and Power

Engineered for operator comfort with adjustable seating and precise control systems.

Power Source	Gasoline
Core Components	PLC, Engine, Bearing, Gearbox, Motor, Pressure vessel, Gear, Pump

Service and Quality

Support Services

- Video technical support
- Free spare parts
- Online support
- Machinery Test Report provided

Warranty on Core Components	1 Year
