Product Overview

Professional Concrete Cutting Solutions

These multi-purpose concrete cutters are engineered for precision and efficiency in cutting concrete, asphalt, and stone. Designed with a focus on ergonomics and durability, the heavy-duty frame eliminates vibration and bending during operation. Featuring adjustable cutting depth and integrated water cooling systems, these machines are ideal for road construction, pavement repair, and various small to mid-sized job sites.

Technical Specifications

Drive Configurations

- Push Walk-Behind (CNQ12-18)
- Semi-Self-Propelled (CNQ20/20A/26)
- Full-Self-Propelled (CNQ26Y)

Engine Compatibility

Gasoline, Diesel

Design & Construction

Frame Construction

Heavy Duty • Vibration Resistant • Anti-Bending

Wheel System

Ball bearings with waterproof seals for reduced maintenance

Operational Controls

Depth Adjustment

Screw-type depth control with locking mechanism

Cooling System

Yes
