

Connecting Rod Assembly for General Machinery

Connecting rod assembly designed for use in pumps and general machinery. It comprises a connecting rod, piston pin, needle roller bearing, thrust washers, and a big end bearing.

Product Overview

Precision-Engineered Assembly

This connecting rod assembly is designed for high-performance applications in pumps and general machinery. The complete kit includes the connecting rod, piston pin, needle roller bearing, thrust washers, and a big end bearing, ensuring a comprehensive solution for maintenance or assembly needs. Engineered for durability and reliability, this component is built to withstand the rigorous demands of industrial machinery environments.

Technical Details

Included Components

- Connecting rod
- Piston pin
- Needle roller bearing
- Thrust washers
- Big end bearing

Compatible Engine Model

AR125

Identification

Part Markings

67, W

Part Reference

A-02-01---AR125-023

Application

Primary Applications

Pumps • General Machinery
