

Construction Equipment Radiator Grill with Bumper

This is a heavy-duty construction equipment component with a radiator grill, integrated headlamps, and a rugged bumper. It is designed for demanding operational environments and off-road applications.

Product Overview

Heavy-Duty Construction Component

This construction equipment component features a robust radiator grill integrated with a durable bumper and headlamp assembly. Designed for demanding operational environments, the unit is built to withstand rigorous use and harsh conditions. Its rugged construction ensures reliability for off-road applications and heavy-duty machinery maintenance.

Technical Specifications

Category	Hardware Accessories
Application	Construction Equipment, Off-road Machinery, Heavy-duty
Serial Number Reference	20090910140422026735

Design Features

Integrated Components

- Radiator Grill
- Bumper Assembly
- Headlamps
