Product Overview

High-Performance Front Idler Wheel

This heavy-duty front idler wheel is engineered for superior wear resistance and reliable performance in demanding construction environments. Featuring induction-hardened tread diameters and precise manufacturing, it ensures optimal track alignment and smooth operation for tracked vehicles. The robust construction, combined with high-quality bushing and seal groups, guarantees an extended service life and reduced maintenance requirements.

Technical Specifications

Tread Surface Hardness

50 HRC

Minimum Hardness

Hardened Depth

6.5 mm

Manufacturing Process

Forging, Casting, Induction Hardened, Tempered

Compatibility & Features

Assembly Options

- Supplied alone
- Fully assembled with brackets

Key Benefits

Wear Resistant • Crack Resistant • Chip Resistant • Precision Fit
