

Construction Personnel and Material Hoist

This construction hoist provides a robust and reliable vertical transportation solution for building sites. It efficiently lifts personnel and materials to various levels, enhancing productivity and safety.

Overview

High-Efficiency Vertical Transport

The SSE160B Construction Hoist is a robust and reliable vertical transportation solution engineered for demanding construction environments. Designed to efficiently lift both personnel and materials, this unit features a sturdy steel structure and a spacious cabin for maximum site productivity. It incorporates advanced safety mechanisms, including overload protection and emergency stop systems, ensuring compliance and operational stability for high-rise projects.

Technical Specifications

Model	SSE160B
Application	Personnel Hoist, Material Hoist, High-rise Construction

Safety Features

Integrated Safety Features

- Overload protection
- Emergency stop mechanism
- Interlocking cabin doors

Performance

Key Operational Metrics

160 kg
