

Container Flat Wagon for Intermodal Transport

This flat wagon is designed for transporting ISO containers. It has a maximum load capacity of 70 tons.

Overview

Intermodal Transport Solution

The X70 series flat wagon is a specialized rail vehicle engineered for efficient intermodal container transport. Featuring a robust construction, this wagon is optimized for heavy-duty logistics operations, offering a significant maximum load capacity of 70 tons. It is designed to meet the rigorous demands of modern freight transport while maintaining structural integrity.

Technical Dimensions

Length	12.5 m
Width	3 m
Conversion Length	1.2

Performance Metrics

Performance Highlights

70 t Max Load Capacity	22.1 t Tare Weight
