Overview

High-Capacity Containerized Power Solutions

This containerized diesel generator set is engineered for high-demand power requirements, offering a versatile output range from 825 to 2500 KVA. Designed for durability and ease of use, the unit features a robust, soundproof container that protects critical components from environmental factors while facilitating simple transport and deployment. With integrated maintenance access and an advanced intake/exhaust system, this generator provides a reliable power source for industrial, commercial, and emergency applications.

Technical Specifications

Power Output Range

825 KVA
Minimum Power

2500 KVA
Maximum Power

Design & Construction

Key Design Features

- Excellent soundproof design
- Control panel viewing window
- Superior intake and exhaust system
- Internally mounted silencer
- Easy lifting and moving configuration
- Environmentally friendly polyester powder paint

Operational Advantages

Easy Maintenance, Weather Resistant, Portable, Soundproof
