

Containerized Diesel Generator Set

These containerized diesel generator sets are available in 20-foot and 40-foot options, ranging from 798-1250kVA and 1100-2475kVA respectively. The units offer optimal protection and fluid containment within a minimized footprint, while also being sound attenuated.

Overview

Containerized Diesel Generator Solutions

These containerized diesel generator sets offer a robust, all-in-one power solution designed for demanding industrial and commercial environments. Available in 20-foot and 40-foot configurations, these units provide power outputs ranging from 798kVA to 2475kVA. The integrated design ensures optimal unit protection, sound attenuation, and environmental safety through fluid containment, making them ideal for immediate outdoor deployment without the need for complex installation.

Key Features

Container Options

- 20-foot sets (798-1250kVA)
- 40-foot sets (1100-2475kVA)

Operational Advantages

Sound Attenuated, Fluid Containment Design, Outdoor Ready, Easy Transport, No Installation Required, Environmental Protection
