Product Overview

Continuous Uniform Illumination

This COB (Chip-on-Board) flexible LED strip light is engineered for professional applications requiring seamless, dot-free lighting. By utilizing advanced flip-chip technology, it eliminates visible shadows and provides a uniform 180° glow angle, making it perfectly suitable for integration into profiles and architectural lighting designs. Designed for efficiency and reliability, this strip offers a high-quality, consistent light output for demanding commercial and residential environments.

Technical Specifications

Power Consumption

10 W/M
Max Power

CRI (Ra)

- 80
- 90

Input Voltage	24 V
Luminous Efficacy	120 lm/W
Glow Angle	180 °

Certifications & Compliance

Certifications	CE, ROHS, ETL
