

Convertible Chest Refrigerator Freezer with Glass Door

This convertible unit functions as either a refrigerator or a freezer. It features a flat tempered glass door, caster wheels, a door lock, and quick deep freezing capability.

Product Overview

Versatile Commercial Preservation

This horizontal showcase refrigerator is engineered for commercial environments such as supermarkets and convenience stores. It features a versatile convertible design that functions seamlessly as either a refrigerator or a freezer to suit your storage needs. The sliding glass lid ensures easy product access while maintaining optimal internal temperatures for food preservation.
