

Convertible Freezer and Chiller Island Display Case

This island display case can be converted between chiller and freezer modes with one key. It features four-sided high glass for enhanced product visibility and an optimized air curtain design.

Product Overview

Versatile Island Display Solution

This convertible island display case offers exceptional flexibility for retail environments, functioning seamlessly as either a chiller or a freezer with a single-key adjustment. Designed with a sleek metal aesthetic and high-visibility four-sided glass, it ensures your products are presented elegantly. The unit features advanced air curtain technology to boost refrigeration efficiency, making it a smart, energy-conscious choice for supermarkets and convenience stores.
