Product Overview

Versatile Material Handling Solution

This 2-in-1 convertible hand truck is designed to enhance efficiency in warehouses, delivery services, and industrial environments. Featuring a push-button release mechanism, it seamlessly transitions from a vertical hand truck to a horizontal platform cart to accommodate various load sizes. Its foldable design ensures compact storage when not in use, while the durable construction provides reliable support for heavy items.

Performance Metrics

Key Performance Metrics

68 kg Vertical Capacity	136 kg Horizontal Capacity
-----------------------------------	--------------------------------------

Vertical Load Capacity	68 kg
Horizontal Load Capacity	136 kg
