

Convertible Hand Truck with Pneumatic Tires

This convertible hand truck is designed for transporting heavy loads with ease. It features a versatile design that converts from a two-wheel hand truck to a four-wheel platform truck.

Overview

Versatile Material Handling Solution

This heavy-duty convertible hand truck is engineered for efficient material transport in industrial, commercial, and residential settings. Featuring a robust steel frame with a durable powder-coated finish, it offers excellent corrosion resistance for long-term reliability. Its unique design seamlessly converts from a standard two-wheel hand truck to a four-wheel platform truck, providing maximum versatility for various load sizes and types.
