

Corded Angle Grinder for Metalworking

This corded angle grinder is designed for grinding, cutting, and polishing various materials. It features a compact design for easy handling and maneuverability.

Overview

Professional Performance Angle Grinder

This corded angle grinder is engineered for heavy-duty metalworking applications, including efficient grinding, cutting, and polishing. Its ergonomic design features a compact motor housing and a balanced handle configuration, ensuring superior control and maneuverability for professionals. Built for versatility, this tool provides consistent power for demanding tasks while maintaining high standards of operator safety and comfort.

Technical Specifications

Material Suitability

- Ferrous metals
- Non-ferrous materials

Applications

Metalworking, Grinding, Cutting, Polishing

Safety & Design

Safety Components

Grinding wheel guard • Auxiliary side handle

Power Source

Corded Electric
