

Corded Electric Drill

This corded electric drill is designed for various drilling applications. It features a robust chuck for secure bit retention and a variable speed trigger for controlled drilling.

Overview

Professional Performance

This corded electric drill is engineered with a high-density aluminum head shell for enhanced structural integrity and longevity. Equipped with a robust 750W high-power motor, it delivers consistent power for efficient drilling and fastening tasks. It is a versatile tool designed to handle a wide range of applications, from wood processing and metal drilling to precision screw tightening and removal.

Technical Specifications

Rated Power

750 W

Power Output

Housing Material

High-density aluminum

Applications

Primary Functions

- Drilling in wood
- Drilling in metal
- Drilling in steel
- Tightening screws
- Removing screws

Supported Materials

Wood, Steel, Metal
