

Corded Jig Saw

This corded jig saw is designed for cutting various materials with precision. It features adjustable speed settings and a durable construction for reliable performance.

Overview

Versatile Cutting Performance

This corded jig saw is a versatile power tool engineered for precision cutting across a variety of materials, including wood, metal, and plastic. It features a powerful motor, adjustable speed settings, and a durable construction designed to ensure reliable performance for both professional and DIY applications. With user-friendly additions like a tool-free blade change system and adjustable orbital action, this tool is built to enhance cutting efficiency and comfort during extended use.

Technical Specifications

No-Load Speed

3000 min

Max Speed

Input Power

810 W

Voltage/Frequency Options

230V/50Hz, 120V/60Hz

Cutting Capacity

Cutting Capacity

Material	Max Depth
Wood	80mm
Steel	6mm

Features

Key Features

- 4-Stage pendulum action
- Integrated laser function
- Quick change blade system
- Adjustable base plate for bevel cuts up to 45 degrees
