

Corded Jigsaw - M1Q-DU06-100

This corded jigsaw is designed for cutting various materials with precision. It features adjustable speed settings and a stable base to ensure accurate cuts.

Overview

High-Performance Corded Jigsaw

This versatile 710W corded jigsaw is engineered for precision cutting across a variety of materials, including wood and steel. Featuring a 3-position pendulum action and a variable 6-speed control, it allows users to tailor the cutting performance to specific project requirements. With a built-in laser guide and an adjustable base plate, this tool ensures accurate, clean cuts for both professional and demanding DIY applications.
