Overview

High-Performance Cordless Cable Cutting

The EB-105 Cordless Battery Cable Cutter is an advanced, micro-computer-controlled tool designed for demanding electrical and construction environments. It features an automated pressure detection system with double safety protection and a rapid-approach, slow-working dual piston pump for efficient, precise cuts. Ergonomically designed with a non-slip grip and a 350° rotating head, it ensures operator comfort and accessibility in tight, difficult working areas.

Performance Metrics

Cutting Force

120 kN

Cutting Force

Cutting Range

105m Cu/Al cable and armoured cable

Cycle Time

15~30s (depending on cable size)

Technical Specifications

Model Number	EB-105
Stroke	108 mm
Dimensions	613 x 380 x 83 mm

Power & Battery

Power System	DC 18V / 3.0Ah
Charging Time	1 hour

Features

Key Features

- Micro-computer control with auto-pressure detection
- OLED display for maintenance and status monitoring
- Automatic pressure release and piston retraction
- 350° rotating head for tight spaces
- Acoustic signal for low battery or pressure deviation
- Temperature sensor with auto-shutoff protection (60°C)

Included Accessories

Standard Accessories

Fixed blade, Active blade, 2 Batteries, 1 Charger, Cylinder sealing ring, Safety valve sealing ring, Plastic carrying box
