

# Cordless Electric Chain Saw for Wood Cutting

This cordless chain saw is engineered for efficient and convenient wood cutting. The rechargeable battery provides freedom of movement for pruning, limbing, and light tree felling.

## Overview

### High-Performance Cordless Wood Cutting

This 20V cordless electric chain saw is engineered for efficient and convenient wood cutting, offering complete freedom of movement without the constraints of power cords. Built with a durable PP+GF30 housing and a powerful 890 brushed motor, it is ideal for pruning, limbing, and light-duty tree felling. Safety and ease of use are prioritized through features like a mechanical brake and the SDS chain adjustment system.

## Performance

### No-load Speed

**8 m/s**

Chain Speed

## Power System

Operating Voltage	20 V
Battery Capacity Options	1.5Ah, 2.0Ah, 2.5Ah, 3.0Ah, 4.0Ah, 5.0Ah, 6.0Ah, 8.0Ah
Charging Time	1 hour fast charger

## Technical Construction

Housing Material	PP+GF30
Motor Specification	890 Brushed Motor
Drive Train	First gear box

## Cutting Components

Chain Components	Oregon Chain
Adjustment System	SDS Tool-less Adjustment

## Safety & Maintenance

### Safety Mechanisms

- Mechanical brake
- Automatic oil pumping
- Ergonomic handle for secure grip

## Logistics

### Available Configurations

- Single battery pack
- Double battery pack

### Packaging Type

Color box packing
