

Cordless Electric Chainsaw for Wood Cutting

This cordless electric chainsaw features a high-performance motor and a durable cutting chain for efficient wood cutting. It is powered by a rechargeable lithium-ion battery, providing extended runtime and portability.

Product Overview

High-Performance Cordless Chainsaw

This cordless electric chainsaw is engineered for efficient wood cutting, pruning, and limbing tasks. Powered by a reliable lithium-ion battery system, it offers the portability and freedom of movement required for professional and residential yard work. Its ergonomic design prioritizes user comfort, while integrated safety mechanisms like a chain brake and hand guard ensure secure operation.

Technical Specifications

Voltage	21 V
Battery Capacity	4 Ah

Key Features

Power Source

Lithium-ion Battery • Rechargeable

Safety Mechanisms

Chain Brake, Hand Guard
