

Cordless Electric Chainsaw with Oregon Chain

This cordless chainsaw is equipped with an Oregon Double Guard 91 chain for efficient cutting performance. Its 40V lithium-ion battery provides substantial power and extended runtime.

Product Overview

High-Performance 40V Cordless Chainsaw

This powerful 40V MAX Lithium Cordless Chainsaw is designed for efficiency and versatility in various cutting tasks, including pruning, limbing, and light-duty tree felling. Equipped with a premium Oregon Double Guard 91 chain, it ensures clean cuts with significantly reduced kickback for enhanced safety. The tool-less tensioning system and ergonomic, lightweight construction provide a user-friendly experience that minimizes fatigue during extended outdoor projects.
