

Cordless Electric Grass Trimmer

This cordless grass trimmer is designed for lawn and garden maintenance. It features a lightweight and ergonomic design for comfortable use.

Overview

Efficient Garden Maintenance

This Cordless Electric Grass Trimmer is designed for professional lawn and garden maintenance, offering the freedom of cordless operation without the hassle of cables. It features a lightweight, ergonomic design with an aluminum telescopic shaft and adjustable auxiliary handle to ensure user comfort during extended use. With its rotating head and edge trimming function, it provides precise results in hard-to-reach areas and along garden borders.
