Product Overview

Modern & Efficient Boiling

This cordless electric kettle combines a sleek, modern design with high-performance functionality. Featuring a dual-layer construction with a durable plastic exterior and a high-quality 304 stainless steel interior, it is built for longevity and daily use. Designed with user convenience in mind, it includes a 360-degree rotational base and rapid heating technology to save both time and energy.

Technical Specifications

Capacity	1.7 L
Materials	304 Stainless Steel, Durable Plastic
Base Design	360-degree rotational

Safety Features

Safety Protections

- Automatic power shut-off after boiling
- Boil-dry protection
- Steam induction controller

Safety Certified	Yes
