

Cordless Electric Lawn Mower

This cordless electric lawn mower features adjustable cutting height and a grass collection bag. It is powered by a rechargeable battery for convenient and eco-friendly lawn care.

Overview

Efficient Lawn Maintenance

This cordless electric lawn mower is designed for efficient and convenient lawn care, powered by a reliable 36V brush motor system. It features a compact 330mm cutting diameter and a central height adjustment mechanism with 5 distinct positions to suit various grass conditions. The lightweight design includes a 30L grass catcher, making it an ideal choice for maintaining small to medium-sized residential lawns.
