

# Cordless Electric Pruning Shears

These cordless electric pruning shears make trimming branches and shrubs easy. They feature high-carbon steel blades, an ergonomic handle, and a safety switch.

## ADDITIONAL IMAGES

## Overview

### High-Performance Cordless Pruning

These cordless electric pruning shears are engineered for efficient and effortless trimming in gardens, orchards, and landscaping environments. Featuring a powerful brushless motor and high-carbon steel blades, they deliver precise cuts while reducing user fatigue. The cordless design provides complete freedom of movement, supported by a long-lasting lithium-ion battery system.

## Technical Specifications

|                  |   |
|------------------|---|
| Battery Voltage  | 36 V  |
| Battery Capacity | 4.4 Ah  |
| Energy Capacity  | 144 Wh  |
| Key Features     | Brushless Motor, High-Carbon Steel Blades, Ergonomic Handle, Safety Switch, Cordless Design |

## Safety & Maintenance

### Battery Safety Guidelines

- Do not expose to high temperatures or direct sunlight
- Do not disassemble the battery
- Keep away from water, salt water, and moisture
- Keep out of reach of children
- Charge at least once per month
