

Cordless Electric Steam Iron

This cordless electric steam iron is designed for easy handling and maneuverability. It features adjustable temperature and steam control, making it suitable for both dry and steam ironing.

Product Overview

Cordless Convenience for Professional Results

This cordless electric steam iron is engineered for maximum maneuverability and ease of use, eliminating cord tangles during operation. Featuring a non-stick soleplate, it ensures smooth gliding across a wide variety of fabric types. The unit includes a dedicated charging base, making it a versatile solution for both dry and steam ironing tasks.

Technical Specifications

Ironing Modes	Dry Ironing, Steam Ironing
