Product Overview

High-Efficiency Cordless Cleaning

This wireless handheld vibration mop utilizes high-frequency reciprocating technology to clean floors with sixty times the efficiency of manual mopping. Designed for convenience and versatility, it features a low-noise high-precision gearbox and a compact eight-centimeter profile to reach under furniture. The unit is powered by a long-lasting lithium battery and is suitable for various hard floor surfaces including wood, tile, and marble.

Performance Specifications

Vibration Frequency	900 times/min
Runtime	60 min
Battery Capacity	2000 mAh

Design and Ergonomics
