

Cordless Epilator and Shaver for Women

This cordless personal care device is designed for hair removal. It features both an epilation head with multiple tweezers and a shaving head for a smooth finish.

Product Overview

Versatile 2-in-1 Hair Removal Solution

This dual-function personal care device combines an efficient epilator and a gentle lady shaver into one compact, ergonomic unit. Designed for convenience, it offers both corded and cordless operation, making it perfect for home use or travel. With a rechargeable lithium-ion battery and intelligent features like overload protection and a low-battery alarm, it provides a reliable and safe grooming experience.
