

Cordless Extendable Pole Hedge Trimmer

This cordless pole hedge trimmer is designed for trimming hedges and shrubs at various heights. It features an extendable pole and adjustable cutting head for precise trimming.

Overview

Professional Reach and Precision

This 20V Cordless Extendable Pole Hedge Trimmer is designed for efficient maintenance of tall hedges and shrubs, eliminating the need for ladders. It features an adjustable cutting head and a telescopic pole, providing maximum reach and flexibility for various landscaping tasks. The cordless design, powered by a 20V lithium-ion battery, ensures complete freedom of movement while the lightweight construction reduces user fatigue during extended operation.
