Product Overview

High-Performance Cordless Gas Nail Gun

This professional-grade cordless gas nail gun is designed for efficiency and reliability in heavy-duty construction and woodworking applications. Featuring a durable aluminum magazine and a reversible belt hook, it offers portability and ease of use for tasks ranging from door frame installation to concrete fastening. With a powerful operating mechanism and advanced safety features, this tool is engineered to deliver consistent, precise results in demanding industrial environments.

Technical Specifications

Tool Dimensions	380 x 115 x 380 mm (14.96 x 4.53 x 14.96 in)
Net Tool Weight	3.7 kg
Operating Voltage	7.2 V
Load Capacity	30 nails
Nail Diameter	2.6 ~ 3.1 mm
Nail Length	15 ~ 40 mm
Operating Frequency	120 times/min

Key Features

Key Features

- Easy-to-load fuel cell
- LED low battery indicator
- Li-ion battery power
- Reversible belt hook (left/right)
- One-step easy nail loading
- Durable aluminum magazine
- Pointy teeth for easy toe-nailing
